

CHS OF NJ CELEBRATES WORLD BREASTFEEDING WEEK

Trenton, NJ – In support of World Breastfeeding Week, The Children’s Home Society of New Jersey (CHS of NJ) recently held a local celebration in collaboration with Capital Health and La Leche League International. Twenty-six women from throughout the City of Trenton (all breastfeeding moms) and their children attended. The two hour program consisted of presentations, a photo exhibit, and individual consultations with bilingual lactation consultants under the supervision of Julie Blumenfeld, RN of Capital Health. All of this was made possible by CHS of NJ’s dedicated Certified Community Peer Lactation Consultants from the MAYA Program and the CUNA Prenatal Health Education and Support Group. Baby items were donated by Children’s Futures, Inc., who coordinated a week long series of celebrations at six of their Children’s Futures Parent Child centers.
