Happy Holidays from the New Jersey WIC Program!

What’s Happening Now!

• More than 95% of Mercer, Middlesex & Monmouth Counties WIC stores are accepting eWIC card
• More than 80% of VNA and CHS participants are taking advantage of WIC Shopper Mobile app. Thanks to the hard work and efforts of the local agency staff!

Vendor POS Reimbursement Program Updates

• The New Jersey WIC Program approved 176 POS Reimbursement Applications for eWIC POS equipment support
• Once these vendors complete their POS Level 3 certification, they should complete the required paperwork in order to receive reimbursement. Look out for an email from NJ.WICVendor@doh.nj.gov on the documents to complete. Vendors must submit their paperwork no later than June 30th, 2022.

Please note: Submission of the required documents after June 30th, 2022 could impact the ability for the New Jersey WIC Program to provide reimbursement funds.

Clinic Preparation for Transition to eWIC

The State Agency has developed a 3-Step Staff Training Model as below:

1. Learning Management System (LMS) modules, including practice scenarios
2. Practice Sessions facilitated by State Agency staff through Zoom
   a) Basic scenarios
   b) Advanced scenarios
3. Final 2-day Go-Live training

Guidance: All staff should actively participate in this 3-step training process. The expectation is to complete the LMS Introduction Module, plus any modules that pertain to your role at least one time.

NEW! Monthly $ Amount for Veggie & Fruit Benefits

Now Extended to March 31, 2022
